Subject: Talking points on Lebanon--13 June

New Factors

- A cease-fire explicitly between Palestinians and the Israelis was accepted by both sides ~~last night~~. It lasted only a few hours in the Beirut airport area. *YUS 11 00 42*
- The Israelis engaged Palestinian forces on the airport itself, then this fighting died down. Now, they are again engaging Palestinian forces in the ridge line area overlooking the airport and the camps (ie around Aramoun). They have not entered the camps on the ground.
- The Syrian-Israeli ceasefire is holding, but Syria is apparently reinforcing units in the border area with Lebanon and possibly in the Bika' proper.
- No change in Soviet alert status. A total of six IL76 flights have now been made to Damascus since Thursday. Cargo still unknown.

9 P.M. - Beirut
9 A.M. - on line

*> Israeli air strike
in ~~Beirut~~ south Beirut near airport
presumably Palestinian camps -*
